84 Lemon Ave
Mildura VIC 3500

QUALIFICATIONS

- Bachelor of Environmental and Conservation Science
- Dip in Conservation and Land Management

PROFESSIONAL ASSOCIATIONS

- Victorian Planning & Environmental Law Association
- Environmental Consultants Association of Victoria
- Australian Wildlife Management Society

As an Environmental Consultant and Project Manager for Pinion Advisory, Dylan is experienced in state and federal environmental compliance, management, legislation and ecological assessments, bringing a well-rounded knowledge in zoology and botany for government, transport, water and agriculture projects, focusing on sustainability and climate resilience.

Dylan's creative and energetic attitude to project management and strategic planning has formed the backbone for many prominent projects. Formal experience in contemporary botany, zoology and land management projects has been invaluable in delivering high-quality and timely advice to clients and co-workers.

Well developed team building and communication skills have assisted Dylan in becoming an accomplished project manager and a personable consultant. A dedication to OH&S and organisation has reinforced hundreds of ecological and land management projects with quality assurance.

Areas of expertise
