QUALIFICATIONS

- Bachelor of Agricultural Science (The University of Adelaide)

Jana is a committed member of the Pinion Advisory Team. She works in the Pinion Centre for Family Agribusiness Team, primarily delivering technical advice to broadacre cropping clients in the Lower and Mid North regions, and other districts in South Australia. Jana strives to bring sound independent advice to clients, with a focus on whole of business profitability and long-term sustainability.

Jana is part of the dynamic WeedSmart Team, engaged as an extension agronomist for high rainfall regions of Southern Australia.

Jana also works with farm business clients and delivers the benchmarking service. She has been a key instigator of the Next Generation Breakthrough Group, working through management succession with the next generation of farm managers. Jana manages the soil testing service in South Australia and is a key author of the agronomic newsletter, InCrop®.

Jana has a highly adaptable skill set and works in various service delivery areas across the Pinion Advisory Team. She brings a great deal of enthusiasm to all areas of her work and is committed to delivering a high level of value to clients.
