Basil has over 25 years' experience in farm business management, training and consultancy. He has worked extensively in Australia and overseas in grazing industries, primarily consulting to farm business owners and managers and developing and delivering farmer training programs.

He has consulted to research and development corporations, multinational companies, investors, farm owners and managers, and specialises in pasture based grazing systems and their management. Basil is currently consulting to dairy, beef and sheep businesses and is also involved in the ownership and management of grazing properties in Tasmania.

Basil is engaged regularly to speak to industry on a range of topics but, most frequently, about farm management capability and its impact on profit. In addition to this he has worked extensively with research and development corporations to develop, guide and manage extension projects.

Basil has further experience in farm feasibility studies, due diligence, dairy conversions, project management and development, project monitoring and evaluation.
