### QUALIFICATIONS

- Bachelor Agricultural Science (Utas)

Hilton's experience allows him to deliver sustainable and effective outcomes for clients, understanding the unique facets of each client's situation to derive a practical solution.

Since graduating from the University of Tasmania (1990) with a Bachelor of Agricultural Science, Hilton has developed as a specialist across a diverse range of industry sectors. His knowledge ranges from horticulture (small fruit and vegetables) and hops, to extensive hands-on experience with seed crops, tree seedlings and some broadacre agronomy.

After many years as a production agronomist, Hilton followed his passion for sustainable agriculture, working with compost and organic waste, including associated compliance issues.

Hilton rejoined Pinion Advisory (Macquarie Franklin) during 2013 and works on projects related to agricultural production, recycled water, biosolids and environmental management.
