

# Mid North - Farming Systems Focus Group

TUESDAY 2 MARCH | 2 - 5pm | Gally's Meeting House, Farrell Flat

## Join an innovative group of growers, talking all things: BUSINESS RISK MANAGEMENT – ENTERPRISE CHOICE – ROTATION OPTIMISATION – LONG TERM PRODUCTIVITY – CLIMATE CHALLENGES

This once off Farming System Focus Group is the preliminary workshop for the National Landcare Program: Livestock Integration for Resilient Cropping Systems – an Australian Government initiative.

All growers in the district are encouraged to attend the Focus Group. This session aims to challenge and expand our thinking of current farming systems, deep dive, brainstorm and share ideas addressing current and future on-farm issues, with a particular focus around livestock and pasture integration.

We invite a limited number of growers considering the potential of utilizing pasture and livestock in cropping rotations to join a Local Producer Group. Comprising of a series of four technical sessions in 2021 and 2022, with topics tailored to group specific interests, including:

- Rotational economic analysis
- Enterprise risk management
- Pasture integration in cropping rotations
- Maximizing livestock performance
- Industry expert speakers

Hosted by Pinion Advisory Agribusiness Consultants - Patrick Redden and Jana Dixon.

This once off workshop is a **free event**, with light refreshments provided.

*To participate in the Local Producer Group, a contribution of \$200 GST ex per business is required.*

This project is delivered by Pinion Advisory, *through the National Landcare Program: Smart Farms Small Grants – an Australian Government initiative.*

Please RSVP to the Focus Group by February 10
