

## Wade Bone

**Graduate Consultant  
Water & Environment**

### CONTACT DETAILS

0458 014 249

25 York St, Launceston  
TAS 7250

### QUALIFICATIONS

- Bachelor of Science (Aquatic Biology)

Wade is a Graduate Consultant for Pinion Advisory, within the Water & Environment Team. Wade completed a Bachelor of Science at the University of Tasmania (Aquatic Biology; Geography and Environment specialisation) in Launceston. Wade received the UTAS Deans Summer Research Scholarship in 2020 to conduct research into the distribution and habitat requirements of the Central North Burrowing Crayfish, completing a species distribution model and conducting various field surveys.

Wade has broad experience in stakeholder communication and engagement in various industries, previously interpreting client needs to provide positive outcomes in face-to-face and ecommerce customer service roles. He enjoys spending time in the field conducting environmental surveys and research and working collaboratively with stakeholders at a local level.

### Areas of expertise

- Stakeholder communication
- Environmental research
- Environmental monitoring

### Professional experience

- Pinion Advisory - Graduate Consultant – Water & Environment, 2022-present
- Bronzewing Farm - Farm Hand, 2019-2020
