

CAPABILITY STATEMENT

Sarah Barrett

Senior Consultant Carbon and Climate Change

CONTACT DETAILS

0477 985 854

PO BOX 78
Freeling SA 5372

QUALIFICATIONS

- Masters (Env Mgt)
- Bachelor of Env Sc

PROFESSIONAL ASSOCIATIONS

- Australian Institute of Ecological Agriculture

COMMITTEES OR BOARDS

- Chair Landcare Association of South Australia
- Community Board Member Northern & Yorke Landscape Board (South Australia)

As senior consultant for Carbon and Climate Change, Sarah brings climate resilient thinking to the range of Pinion's business areas, including environmental services, on-farm production, agri-business and economic management. Sarah possesses a range of skills in technical environmental and agroecological assessment, as well as a solid understanding of grazing systems, broadacre cropping and viticultural systems.

Sarah has significant experience working with diverse groups in natural asset management and sustainability benchmarking. Carbon farming is an area of rapid growth, where Sarah works in emissions reduction, adaptation and change management for producers, processors and end users of agricultural products.

Sarah has experience in leading and managing multi-faceted projects for a variety of client groups including private business and industry bodies. Sarah believes strongly in supporting the future of Australian agriculture during this unique period of change with improved connection and practical application of carbon farming and education tools.
