C/- 3/11 Ireland St
Bright VIC 3741

QUALIFICATIONS

- Graduate Certificate Sustainability
- Graduate Certificate Project Management
- Bachelor Nursing/Bachelor Clinical Practice (Paramedics)

Kate is a consultant in the Pinion Advisory Sustainability Strategy team. After growing up in a farming family, Kate changed careers (having initially worked in healthcare) back to agriculture in 2019, and has since gained experience in agtech and the regulated carbon market.

Kate has an advanced working knowledge of the ERF soil carbon methodology, the carbon market and its application within the agricultural industry. She has trained and supported the uptake of farm management data programs in large scale farm businesses across various industries.

Skilled in project management and sustainability, with well-developed communication skills, Kate is passionate about supporting producers by demystifying and promoting sustainable development within agriculture.

Areas of expertise

- Project management
- Soil carbon methodology
- Clean Energy Regulator engagement
- Farm data management
- Sustainable development
- Carbon farming projects
- Communication

Professional experience

- Pinion Advisory – Consultant Sustainability Strategy, March 2023-present
