Rohit is an Agribusiness Consultant for Pinion Advisory, within the Commodity Risk Management Team.

Rohit enjoys working within the grain team and has the ability to create and execute effective strategies that drive measurable results to enable the organisation to achieve their strategic plans and financial goals. He has experience in derivatives and a strong business acumen, along with a customer-centric approach. Some of his professional skills are data analysis & reporting, gap analysis, costing analysis, strategic planning and resourcing and a good knowledge of derivatives markets.

Rohit is an objective and rational thinker and has expertise in engaging with key clients to cultivate partnerships, retain services and facilitate organisational success.
