TAS 7010

QUALIFICATIONS

- Bachelor of Business & Science
- Graduate Certificate in Science (Groundwater Hydrology)

Hugh works as a senior consultant in various scientific and field-based roles within the water and environment team.

He has extensive experience and expertise in soil and groundwater monitoring programs, recycled water and biosolids management and environmental compliance, streamflow site construction and monitoring (including telemetered data) and stakeholder engagement.

Hugh is experienced working with geospatial information systems (GIS) programs, including QGIS and ArcGIS.

Hugh has well developed interpersonal skills and works with farmers, water utilities, government sectors and private enterprise to meet their project and compliance needs.

Areas of expertise

- Project management
- Stakeholder engagement
- Recycled water and waste management
- Environmental monitoring programs (water, soil and groundwater)
- Regulatory reporting
- Compliance auditing
- Geospatial information system (GIS) design and general mapping

Professional experience

- Pinion Advisory – Senior Consultant – Water & Environment, 2023 - current
- Pinion Advisory (Macquarie Franklin) – Consultant – Water and Environment, 2014–2022
- Macquarie Franklin – Project Officer – Sustainable Management Solutions, 2012 - 2014

CAPABILITY STATEMENT
