

## Josh Tomlin

**Senior Consultant  
Sustainable  
Management Solutions**

### CONTACT DETAILS

0400 265 378

Tech 4, Unit 2  
30-38 Innovation Dr  
Dowsing Point Tas 7010

### QUALIFICATIONS

- Bachelor of Agricultural Science

Josh completed his tertiary studies in Agricultural Science in 2006 and began his career as an agronomist in North West Tasmania. Over time, he developed into a specialist in the organic waste and wastewater sector, gaining extensive experience in the development and management of organic waste reuse operations.

His work has involved the land application of liquid and spearable organic wastes sourced from a variety of industries, including wastewater treatment, aquaculture, breweries, distilleries and abattoirs.

Josh joined Pinion in 2025, bringing with him a wealth of practical knowledge and operational expertise. He is a valuable member of our Sustainable Management Solutions team, contributing deep industry insight and hands-on experience.

### Areas of expertise

- Biosolids reuse
- Organic waste reuse
- Wastewater lagoon desludging
- Waste strategy and contingency
- Regulatory compliance
- Small-scale hydroelectricity
- Waste treatment
- Contaminated land

### Professional experience

- Pinion Advisory – Senior Consultant – Sustainable Management Solutions, September 2025-current
- Spectran Group – Environmental Solutions Manager, 2019-2025
- Conhur – State Manager, 2018-2019
- River Power Tasmania –Operations Manager, 2011-2018
- Serve-Ag – Project Agronomist, 2007-2011

# CAPABILITY STATEMENT

## Relevant projects

PROJECT	ROLE	CLIENT	YEAR/S DELIVERED
Winery wastewater irrigation	Preparation of an irrigation EMP enabling compliant and sustainable reuse of winery effluent	Tas Wineworks	2026
Lonnvale broodstock facility	Development of a waste and wastewater reuse environmental management plan to complement the expansion of an existing recirculated aquaculture facility, including baseline monitoring of wastes, wastewater, soils, surface water and groundwater.	Huon Aquaculture	2025
Biosolids reuse	Land assessments, planning, regulatory compliance and operational management supporting agricultural reuse of 25ktpa of dewatered biosolids produced at multiple sites across Tasmania.	TasWater	2021, ongoing
Salmon mortality processing	Design, construct and operate a centralised salmon mortality processing facility producing liquid fertiliser for agricultural use.	Spectran Group	2024, ongoing
Organic waste landspreading	Site assessments, planning, compliance and on-ground operations for agricultural reuse of ~30 ktpa organic waste from diverse industries.	Spectran Group	2019, ongoing
Waste water treatment plant lagoon desludging	Methodology development and project management of desludging and dewatering of biosolids from multiple WWTPs across Tasmania.	TasWater, TasWater CDO	2018, ongoing
Mini-hydro design and construct	Delivery of feasibility, design, environmental surveys, approvals and project management for run-of-river hydro systems (100 kW – 1 MW)	River Power Tasmania	2011-2018
