Brendan is a Senior Consultant at Pinion Advisory, specialising in Commodity Risk Management and Farm Business Management service areas.

With a background in grain marketing systems and strategies, Brendan excels in broadacre cropping, profit optimisation, and business strategy development.

He holds formal qualifications in financial services and derivatives, enhancing his capability to offer expert advice on derivative-based strategies to our grain marketing service clients.

Brendan's strong technical skills are complemented by his exceptional client relationship and project management abilities. He is adept at one-on-one client consulting and thrives on delivering substantial value through grain marketing and advisory board services.

Key Strengths:

- Grain marketing systems and strategy
- Client relationship management
- Project management
- Financial services and derivatives

Areas of expertise

- Grain marketing strategy development and implementation
- Financial benchmarking
- Strategic planning and farm governance with individual farming businesses

Professional experience

- Pinion Advisory - Senior Consultant - Agribusiness, 2010-present
