

## ISCC MARKET READINESS & RISK AWARENESS

# Workshop Series

### Outline

#### Workshop #1

Topic: ISCC Foundations, market context and what "Audit-Ready" looks like on-farm

Time: 9am - 12 pm

Outcomes:

- Understand what ISCC really means for your farm – what's required, how it works, and how audits actually play out, explained clearly and practically.
- See why ISCC matters for your markets – how sustainability expectations are affecting grain demand, market access and future opportunities.
- Know what "audit ready" looks like on-farm – the key documents, records, policies and safety elements auditors expect to see.

#### Workshop #2

Topic: Farm office deep dive. Records, systems and evidence

Time: 9am - 12pm

Outcomes:

- Get your farm office ISCC-ready – organise records, documents and set up systems so everything is easy to find, use and maintain.
- Build solid audit evidence with confidence – assemble, check and strengthen the records auditors need to see.
- Identify gaps before they become issues, and leave with clear processes and strategies to fix missing or incomplete data.

#### Workshop #3

Topic: Supply chain field trip (e.g. brewery, feedlot, or suitable location with trade rep)

Location: TBC

Time: 9am (approx 3-4 hrs)

Outcomes:

- See where your grain goes and why certification matters – understand how ISCC is used by buyers and end-users, and how on-farm practices and records support access to certified markets beyond the farm gate.
